## **Cristallo Clear™**

*High-Performance Protective  
Clear Coat  
Semi-Gloss or Matte*

**Meoded Cristallo Clear™** is a water-based self-crosslinking 100% acrylic protective clear coat for *Meoded Sapphire Metallic* and many other interior and exterior surfaces. State of the art polymers provide superb resistance to a wide variety of household chemicals, water, and scuffing, while also being protective against salts, oxidation, and fading with its unique UV resistant properties. **Meoded Cristallo Clear™** will provide a durable, non-yellowing finish on most surfaces to help extend the life of decorative finishes and other coated or uncoated surfaces.

### **SURFACE PREPARATION**

Allow surfaces to dry for a minimum 24-48 hours before applying **Cristallo Clear™**. Painted surface should be clean, dry and fully cured prior to application. Cristallo can be applied to painted surfaces, wood, concrete, floors, etc. For surfaces not painted with **Meoded Sapphire Metallic™**, apply on a small test area to ensure the color and desired effect is achieved.

### **APPLICATION**

**Cristallo Clear™** can be brushed, rolled, or spray applied. Stir thoroughly before use, do not shake. For best results and maximum protection, it is recommended to apply two or more coats for interior/exterior use. For floor applications, add an anti-slippery additive and it is recommended to apply a minimum of 2 coats. For porous surfaces such as acrylic plaster, concrete, stone, etc. it is recommended to dilute the first coat with up to 40% water to allow

better penetration. Cristallo Clear is NOT compatible with ANY Meoded Plaster.

### **BRUSHING**

Use a high-quality synthetic bristle brush.

### **ROLLING**

Use a high-quality short nap varnish roller.

### **SPRAYING**

To spray Cristallo, thin with up to 5% water.

### **DRY TIMES**

Dry to touch is approximately 4-6 hours. Recoat time is a minimum of 3 hours. Lower temperature and/or higher humidity will lengthen the dry and cure times.

### **COVERAGE**

One quart will cover approximately 60-100 sq. ft. per coat, depending on surface porosity.  
One gallon will cover approximately 240 to 400 sq. ft. per coat, depending on surface porosity.

### **CLEAN UP**

Clean tools and equipment with warm soapy water immediately after use. Do not reuse containers and properly dispose of empty containers.

### **HANDLING & STORAGE**

To avoid skinning, close containers after each use. Keep the lid tightly closed during storage. Store product in a cool and dry place. Stir thoroughly before use.

### **DISPOSE**

Dispose of leftover material in accordance with local laws regulating water base coatings.
